Computer E★plorers

Parent Update

Today your child learned about plants and pollinators. They built and programmed a bee and flower. Programming the bee to fly around and stop to pollinate the flower. Your child then explored the other type of pollinators and constructed their own and programmed it to pollinate a different type of flower of their choice.

Educational Skills Reinforced	Technological Skills Reinforced
• Science: Scientific investigations, simple machines • Team work • Follow directions • Visualize actions • Pollinator, pollinating	• Rotation directions • Rotation speed • Programming • Constructing 3D model

Keywords and vocabulary:

Pollen Nectar seed	

preparing children for the future
